Professional Summary

Full-stack Developer and B.Tech Computer Science student with strong command over Java, Python and JavaScript. Experienced in building complete web applications from scratch, covering frontend interfaces, REST APIs, databases, automated testing and deployment, using Spring Boot and FastAPI. Creator of Mentora, a live AI-powered learning platform backed by 1,300+ automated tests and continuous integration.

Skills

Languages: Java, Python, JavaScript, SQL
Frontend Development: HTML, CSS, JavaScript
Backend Development: Spring Boot, Spring Data JPA
Databases: MongoDB Atlas, MySQL, SQLite
Tools and Platforms: Git, GitHub, VS Code, IntelliJ IDEA, Jupyter Notebook
Soft Skills: Problem solving, communication, teamwork, adaptability, time management

Experience

Academic Project Based Experience *Full-stack and Java Developer* Sharda University *2024 – Present*
– **Full Stack Development**: Designed and developed academic projects across frontend, backend and database layers
– **Backend Logic Implementation**: Implemented authentication, data validation and business logic in Java and Python
– **Database Integration**: Designed relational schemas and integrated MySQL and SQLite for persistent storage
– **Code Quality**: Followed modular coding practices, version control, automated testing and debugging techniques

Independent Projects and Self Learning *Web Developer* Remote *2024 – Present*
– **Product Development**: Built and deployed real-world web applications, including Mentora and LibriSphere
– **Problem Solving**: Converted functional requirements into technical solutions through structured coding
– **Continuous Integration**: Set up GitHub Actions pipelines that run the test suite on every push
– **GitHub Collaboration**: Maintained repositories with clear commits, documentation and version history

Projects

• **Mentora (AI Learning Platform)** *Python, FastAPI, MongoDB Atlas, HTML/CSS/JS, GitHub Actions, Render* Live
– **AI Tutor**: Full-screen chat tutor that explains concepts step by step for students across 8 subjects
– **Adaptive Practice**: 10-question rounds from 800+ questions that adapt in difficulty and revisit missed topics
– **Goals and Analytics**: Week-by-week roadmaps that adapt to results, with line graphs of progress per subject
– **Teacher Tools**: Class codes, subject folders, quizzes and per-question analysis to track how a class performs
– **Accounts and Support**: Sign-up with email verification, password reset and a built-in help desk

• **LibriSphere (Multi-vendor Bookstore)** *Java 21, Spring Boot, JPA/Hibernate, Thymeleaf, H2, Maven* Live
– **Vendor Portal**: Vendors add and manage their own books on a shared storefront
– **Buyer Experience**: Buyers browse the catalogue, add books to a cart, check out and view their order history
– **Admin Dashboard**: Admins manage vendors and monitor platform activity from a central dashboard
– **Security and Data**: Sign-up, sign-in and role-based access control, with JPA/Hibernate persistence on H2

Certifications

• **Web Development**: HTML CSS and JavaScript Data Flair 2024
• **Java Foundations**: Oracle Academy 2024
• **React Mastery Workshop**: GitHub Club Technova Sharda University 2025
• **Sharda University Training Program**: GeeksforGeeks

Education

Sharda University (Greater Noida India)
Bachelor of Technology Computer Science Engineering *2023 – 2027*
