Professional Summary

Full-stack developer and B.Tech Computer Science student at Sharda University (2023–2027) who builds complete products end to end: data model, REST API, interface, automated tests and deployment. Experienced with Java and Spring Boot, Python and FastAPI, and responsive HTML, CSS and JavaScript front ends. Creator of Mentora, a live AI-powered learning platform backed by 1,300+ automated tests and continuous integration.

Skills

Languages: Java, Python, JavaScript, SQL
Frontend: HTML, CSS, JavaScript, responsive layouts, accessibility, form validation, UI/UX principles
Backend: Spring Boot, Spring Data JPA, Hibernate, Thymeleaf, FastAPI, REST APIs, authentication and role-based access
Databases: MongoDB (Atlas), MySQL, SQLite, H2; schema design and queries
Testing and DevOps: pytest, GitHub Actions (CI/CD), Docker, Maven, Git, GitHub
Deployment and Tools: Render, Vercel, GitHub Pages, VS Code, Jupyter Notebook, Android Studio
Soft Skills: Problem solving, communication, teamwork, adaptability, time management

Projects

Mentora: AI Learning Platform · *Python, FastAPI, MongoDB Atlas, HTML/CSS/JS, GitHub Actions, Render* Live demo
– **AI Tutor**: Full-screen chat tutor that explains concepts step by step.
– **Adaptive Practice**: 10-question rounds that adapt difficulty and revisit missed topics; 800+ questions across 8 subjects.
– **Plans and Analytics**: Week-by-week study roadmaps that adapt to results, with line graphs of progress per subject.
– **Teacher Tools**: Class codes, subject folders, quizzes and per-question analysis, plus verified accounts.
– **Quality**: 1,300+ automated pytest tests run on every push through GitHub Actions; deployed on Render.

LibriSphere: Multi-vendor Bookstore · *Java 21, Spring Boot, JPA/Hibernate, Thymeleaf, H2, Maven* Live site
– **Three Roles**: Vendors manage books; buyers browse, add to cart and check out; admins run it from a dashboard.
– **Security**: Sign-up, sign-in and role-based access control across responsive, server-rendered pages.

Developer Portfolio · *HTML, CSS, JavaScript, Vercel* Live site
– Animated one-page portfolio with light and dark themes and reduced-motion support, built without frameworks.

Earlier Projects · *Java, SQLite/MySQL, JavaScript, Android*
– **Library Management System** (issue, return, fines, roles), **Job Board**, **Stream-based Quiz App** with real-time scoring, and an **Emergency Alerting Android App** with live location.

Experience

Academic Project Based Experience *Full-stack and Java Developer* Sharda University · *2024–Present*
– **Full-stack Development**: Designed and built academic projects spanning frontend, backend and database layers.
– **Backend and Data**: Built authentication, validation and business logic in Java and Python; designed MySQL/SQLite schemas.

Independent Projects and Self Learning *Web Developer* Remote · *2024–Present*
– **Product Development**: Turned requirements into deployed products, from Mentora and LibriSphere to job portals.
– **Engineering Practice**: Version control with clear commits and documentation, automated testing and CI on GitHub.

Certifications

- **Web Development**: HTML, CSS and JavaScript, DataFlair (2024)
- **Java Foundations**: Oracle Academy (2024)
- **React Mastery Workshop**: GitHub Club Technova, Sharda University (2025)
- **Sharda University Training Program**: GeeksforGeeks
- **Problem Solving (Basic)**: HackerRank

Education

Sharda University, Greater Noida, India *2023–2027*
Bachelor of Technology, Computer Science and Engineering
